Vadodara

SUMMARY

Creative and technically driven B.Tech Computer Science student with strong interest in AI prompt engineering and generative technologies. Experienced in building intuitive web applications powered by prompt-based logic using GitHub Copilot and AI APIs. Proven skills in HTML, CSS, JavaScript, Python, and basic AI/ML integration. Adept at turning ideas into interactive tools that enhance user experience through intelligent automation.

PROFESSIONAL EXPERIENCE (INTERNSHIPS)

Data Analytics Job Simulation - Deloitte (Virtual Internship)

18th Feb 2025

Power BI Job Simulation - PwC (Virtual Internship)

4th March 2025

Data Analyst Internship - CODTECH IT SOLUTIONS PVT. LTD.

10th March – 25th April 2025

EDUCATION

Bachelor of Technology in Computer Science and Engineering (B.Tech)

PARUL INSTITUTE OF TECHNOLOGY | Vadodara, CGPA-7.89

ADDITIONAL INFORMATION / VOLUNTEERING EXPERIENCE

Gujarat Tableau User Group – Event Support & Coordination

Earned certificates of softskills from Infosys Springboard – Time Management , High Impact presentation

PROJECTS

MoodMap – Interactive Mood Prediction Tool([LINK](#))

HTML, CSS, JavaScript | Prompt Engineering with Copilot

Developed a web-based mood tracker that uses emoji, color, and number inputs to deliver personalized mood predictions.

Leveraged prompt-based design to generate insights.

Lustre Vault – Luxury E-Commerce Platform([LINK](#))

HTML, CSS, JavaScript | AI-Powered UX

High-end shopping website offering premium products from brands like Nike, Rolex, and Dior. Integrated AI-driven components for user personalization and intelligent product discovery.

AI-Driven Precision Farming([LINK](#))

AI + Web Tech | Smart Agriculture Platform

Built a smart farming web app that integrates real-time weather, soil analysis, disease detection, and AI-driven irrigation scheduling to aid farmers in making informed decisions.

WellnessWave (Kod-E-thon – 2nd Place)([LINK](#))

AI + Prompt Engineering | Mental Wellness Tool

Created a privacy-focused mental health platform combining AI-generated insights, gamified exercises, and curated resources to support emotional well-being.

KEY SKILLS

Time Management, communication skills, analytical Thinking ,Problem-solving

TECHNICAL SKILLS

- **Prompt Engineering Tools:** GitHub Copilot, LLM APIs (basic)
- **Languages:** Python, JavaScript, SQL, HTML, CSS
- **Web Technologies:** Frontend development (HTML/CSS/JS), Web-based UI/UX
- **AI & Automation:** AI prompt crafting, project integration with AI responses
- **Other:** Version Control (Git), Debugging, Logic Flow Design

CERTIFICATIONS/TRAINING

- AINCAT 2025 – Naukri Campus
- Common Internship Test – Internship Studio
- NPTEL – Theory of Computation (IIT Kanpur)
